Description

Gunnison

Come on over and check out Gunnison! We have owned him since he was a weanling. He is a outstanding gentle broke all around kind of gelding that will turn heads also. Gunnison is one that is gentle for the women and broke enough for the guys. Gunnison is such an easy going guy that just loves being petted and scratched on and is just fine with taking a stroll along the beach or take him for weekend trail rides in the mountains. He is smooth in all 3 gaits and is soft in the poll. We have taught him some tricks such as laying down for you and also will ride bridleless and bareback if you so choose. We have taken Gunnison on some long rides in rough country crossing rivers and up mountains. We have had him out in Colorado the last two years shed hunting and also used him for elk hunting. We have even used him for carrying the pack saddle. He is sure footed for all types of terrain. We have also been using him around cattle and have roped a few on him. Gunnison has enough size and talent to go on and make a head horse. Good with traffic and pets. He is easy to saddle and will stand for the farrier. Gunnison is always quiet, gentle and sane with a personable disposition. He also has a a pretty mane and tail for a bonus! He will be wearing shoes on all 4 feet so you can take him out in any kind of country as soon as you get him home. Come try him at our house in the weeks before the sale. Please call us if you have any questions. Clayton (660)-287-1786.
