Description

Gus

Gentle, gentle, gentle is the only way you can describe this young horse. Gus is a son of Sannman who has an LTE of \$200,039 in the cutting pen. Gus does not lack any of the talent that his sire produces but add in an easy going, very willing personality that will get along with the whole family at any riding level. This horse is the type that you can use all summer, turn him out all winter then bring him back and have the exact same horse without any buck or nonsense. He has been used out on the ranch to gather, sort and doctor calves as well as perform in the arena. He has been started cutting, he will turn around, stop hard, go through a trail course with ease, started lightly on the

barrel and pole pattern, been ridden english and has been used by kids doing 4H and ranch horse shows. With his foundation he will be ready for AQHA shows in no time. Gus has been used during clinics as a demonstration horse as well as used as a turn back horse for cutting. He has been started team roping on the head and heel side and started breakaway roping as well. When we say Gus is ready to go do anything, we truly mean it; or just leave him as is and enjoy a nice, easy horse. Gus crosses logs, water, brush and anywhere else you can point him. He is great to shoe, bathe, clip, catch and haul. When people say that they want good foot and straight bone on a horse, they are describing horses like Gus. We truly could not say enough great things about this horse. He is such a safe, patient, willing sweetheart that has his whole life ahead of him, plus a fantastic resume and bloodline to back it all up. Find us at "2 Ranch Horse and Livestock" on Facebook or 435-828-0019 if you have any other questions, to follow him along his journey to the sale, or to even come try him before hand as well.
