TWO CS FLYSUPERMANFLY

McFly is 15.3hh and 1250 lbs. sorrel with roan markings perfectly. He is a powerful mover with kindness. I have owned him for 3 years, he is very broke for any rider, but a big time mover! He has been patterned on barrels-gently. Roped out of the box with lots of potential! Many back country hunting miles- nothing he won't do! He was on a guest ranch for two years. Many miles with a 2 year old grandchild with adult. He will show you how cool he is. Leg pressure, spins, slides, lopes almost in place, carries a flag, easy catch, person pleaser! This horse has the potential and speed more than any horse I have ever had! He could be the best I have ever owned! If you want the BEST, he deserves the BEST! Make him yours.
