**DRAGGING OKIES**

Who needs a handy buttermilk buckskin gelding? "Okie" has been tested and approved by cowboys, kids, friends and family. Okie even took sale manager Fred Snook on a desert trail ride last winter! He is safe, Smart and reliable. He will really watch a cow, open and close gates and he shows well in the ranch riding events(trail, halter, reining, rail and ranch riding). Okie is started out of the box roping and would make a fantastic head, heel, or breakaway horse. He carries the famous Dragging Y Cattle Co brand (Dillon, MT.) He is well mannered and well bred. Good bone, good feet and good minded. Check out his videos or come try him yourself in Arizona! Horses like Okie are hard to find.
