Description

KDS SPICY JALEPEN0

Are you ready to fall in love? Meet Jalapeno! He is an outstanding blue roan draft cross gelding that stands 15H, and weighs about 1400lbs. As a four year old, he has experience and training far beyond his years. His sire was a Percheron, and his dam was a quarter horse. He is registered with the International Draft and Sport Horse Registry. Jalapeno is an absolute dream on the mountain and trails. We have used him during the hunts, packing, leading the pack string, and babysitting first time riders. We hunt and cowboy in some of the roughest country imaginable. Jalapeno will cross rivers, steep rocky ledges, downfall, and creeks, all the while keeping a calm and level head. I know I can always trust him to bring me home safe and sound. He has been my favorite and go-to horse for the last couple of years on the mountain. Not only is he a top notch example of a draft cross, he also has the ability to ride around fancy like a quarter horse. He will gallop collected circles, move off leg pressure and give you a great stop. Better yet, he is broke well enough you can ride him bridleless. If that's not your thing he has a super nice and soft neck rein that is often hard to find in draft crosses. We started him as a colt and have done all the training on him. We have used Jalapeno all over the ranch from branding calves, doctoring and just day to day ranch work. Whether you have a couple acres or 10,000 acres, Jalapeno has a work ethic that can't be beat. He will put his head down and walk the same pace all day long. Standing at 15 hands he is the perfect height to easily climb on and off. He has the bone and muscle to pack just about anyone. He is rock solid physically and mentally. Jalapeno is the perfect package! He is not only beautiful but he is safe and fun to ride. He truly is an exceptional draft cross that we love and know you will too. Jalapeno will come to the sale ready to work. He will be up-to-date on all routine maintenance including teeth, vaccinations, and wormer. He will also have X-rays and a pre-purchase exam done just prior to the sale. Please come out and see for yourself what makes him so special. Give us a call with further questions, or to schedule a day to come ride Jalapeno. Wade Davis @ 801-391-7940.
