Description

BUCKEYES TURBO

BUCKEYES TURBO is a true gem of a horse. He is a 2017, 15.1 hand draft cross gelding that is out of a Percheron Stallion and a Quarter Horse mare. This guy was started out great out west on a ranch where he learned the ropes of ranch work. He checked fences, worked cows, and was used to start unruly colts during colt season. He is not only trained to ride well, he is also equally well trained to drive. He has been ridden by all different ages of riders and is always on his best behavior. He is honestly one of the most laid back and quietest horses we have ever had through our program. No matter how long you let him sit, or how often you work him, he is always the same each time you get him out. He has three very smooth gaits that make him a pure joy to take on long trail rides as you do not get sore. He can also ride English or Western and has a great neck rein. Nothing ever seems to phase him no matter where we take him. He

has been on lots of trail rides, in a lot of different states with different terrain and always settles in with ease no matter where we take him. He goes through water and over bridges and never blinks as eye even in heavy traffic. We have used him on midnight group trail rides with lots of other riders and and wagons with teams of horses and he stood like a saint with all the commotion around him. He is a true confidence builder, but is also a lot of fun for a more advanced rider too. If Turbo is the horse you have been looking for, please give Duane Yoder of Buckeye Acre Farm a call at 330-231-2324.
