**Location** Utah

**Description**

WESTERN BOMBSHELL

Have you ever wondered how the West was won? It was on horses like this! Meet WESTERN BOMBSHELL, a 2013 AQHA gelding that stands at 15.2 HH and weighs about 1300 lbs. His Driftwood heritage is highly sought after in the team roping, barrel racing, and ranch horse world. This horse has an impressive list of all the excellent foundation quarter horses in his lineage. West is a true powerhouse! He is beautiful and friendly to boot. He loves attention and has a big, kind eye. He will meet you at the gate and will not let you get by without petting him. West has a solid confirmation with big bone and good feet. We have used him extensively on the mountain as a trail and packhorse. We ride in some extremely rough country, and West is always up for the job. He crosses rivers, deadfall, and will go through thick brush. He has a great ground covering walk that he will keep all day long. West has the work ethic every boss is looking for. He truly loves to work. He is light in the face and sides, making it very

easy to get a job done. He has been used for everyday ranch work. He efficiently works gates, drags calves to the fire, and will run down fast cattle. He will gallop collected circles and give you a nice stop. We use our horses for everything and West is not just a one-trick pony. He has been ridden in parades, packed flags, and team roped out of the box. When things get crazy and chaotic, West's cool head prevails. He has been around sirens, dogs, bawling calves, and crazy kids, all the while staying cool as a cucumber. West will be coming to the sale ready to work. He is up to date on all routine vet maintenance, teeth work, vaccinations, and wormer. He will also come with current X-rays and a pre-purchase exam. We love having people at our place! Please come and take West out for a spin. Call Wade with any questions or to schedule a day to come ride @ 801-391-7940!
