Description

SMART LITTLE 007

Yellybean is 100% Pure. Just like the golden goose in the story of Jack and the Bean stock everything Yellybean touches seems to turn to gold! Our go to guy – we can turn him out for weeks on end, pull him out, grab our saddle or bareback pad and ride into the sunset! This golden palomino has flawless conformation, a huge hip with a lot of bone and good sized hooves. Working Cowhorse trained, he has a lot of eye appeal and is fancy broke! He SPINS, SLIDES, smooth to ride and is catty on his feet! Ranch riders this is your next World Champion. In September, we had a friend whose daughter needed a horse to show in the Working Cowhorse at the following weekends High School Rodeo. She came rode Yelly a handful of times and went and won on him at the HS Rodeo!! Hauled to rodeos, jackpots he is proven to be One-of-a-kind OUTSTANDING

\$\$\$ winning Head and Heel horse. Yellybean is good in the box, can flat run, rate, works off his hock and has a deep stop. He has carried a 70+ year old man to the ropings for the past several years in Arizona with the tuffs and has also packed anyone that can hold the bridle reins on the trails and backcountry of Arizona! Yelly's skills also include the working cow horse, breakaway roping, ranch horse classes, team penning and on the ranch used to doctor, sort and gather cattle. A great point-and-go trail horse that crosses water, bridges and logs with ease. He will always let you walk out to catch him, has quiet ground manners, gets along with other horses and stalls quietly. Yellybean has the heart and try the size of Arizona that turns heads wherever he goes. He's truly a sale highlight, stand-out individual that will take you to the pay window. Sound, UTD on worming, dental and farrier. 10/7/21 Yelly passed a thorough vet check along with radiographs! We proudly welcome you to our ranch in Wickenburg, AZ, you'll have to have him! Give us a call please with any questions @ 406-381-2347. Thank you!
