**Phone** (330)-231-2324

**Location** OH

**Color** Blue Roan

**Description**

MASTER

Here comes the Master of it all. This solid 2016, 16.3 hand, draft cross, blue roan gelding, has proven that no matter what he is presented with, he will conquer it with precision. One thing we have to start by saying is this, do not let his size fool you. Master has incredible rideability and can canter circles, do lead changes, spins, and side passes just like your quarter horses, but with a little bit more style. He is not only is great to ride, this guy drives just as well. He will be that all around horse that you can enjoy no matter what you want to do with him. He is soft in the mouth, gentle in the sides, and has that true rocking horse canter that you can sit all day long. He has been on miles and miles of trails and will watch where he puts his feet. He does not let anything bother him and will go anywhere that you ask him to go. He has been ridden into town, stood at traffic lights, and is a dream to take anywhere new, as he acts the same everywhere. He has ridden English and Western, and is so much fun to ride

bareback and bridleless. You feel as though you are as free as the wind on your solid war horse. He is a wonderful horse that gives his rider confidence. He aims to please and he went into our program and came out with flying colors. He is a gem in the barn and in the crossties and is great for the farrier and the vet. He is wearing shoes all around and can also go barefoot, if that is your choice. He has been ridden through water, over bridges, and on the ranch moving cattle. He is a horse that will always be the same no matter how often or how little you ride him. He loves the attention whenever you give it and will come running when he sees you. If Master is the horse you have been looking for please give Duane of Yoder of Buckeye Acre Farm a call @ 330-231-2324.
