Description

Hydrive Star

Martini is a 6yo sorrel mare. Her sire Hydrive Cat is an NCHA earner of 416k+. Her dam is an own daughter of Quejanaisalena (338k+). This mare has a lot of go and loves to have a job. Started in a cutting program when she was younger. Martini is easy to look at and be around. Gets along well with other horses. Rides out well alone or with others. This mare is super willing- she will do anything asked of her. She'd be a great prospect for any direction that someone would want to take her in. She would make one heck of a sorting horse or just take her out on trail or turn her into one heck of a ranch horse. She is short backed and athletic. While her short back may not make for the smoothest lope, it definitely helps her snap through herself quick on a cow. Sweet personality and gentle on the ground. She has been rode bareback in a halter. My two-year-old daughter has ridden on her with me double around the house. Sound and Utd on everything, just had her teeth done. This mare stands 14.1 and as wide as

she is tall. Cute as a button with her soft eyes and some roaning on her sides. Martinis only vice is that she doesn't like to be tied where she can't see you or another horse. She is not buddy sour by any means- rides off alone without any trouble. She will stand tied quiet all day if she's tied next to a friend or can see someone. This hasn't bothered us, but it may bother someone else. Ride her now and breed her later- her pedigree speaks for itself, and she'd be an awesome asset to someone's breeding program.
