Year 2014

Gender molly

Color Light Buckskin

Height 14.1

Location AR

Description

Cheyenne

Here is a great mule with an intelligent mind. Cheyenne is 8 year old and stands 14.1 hands. She was purchased from a friend of mine a year ago. She loves people and is easy to catch. She is built very well with a hard to find fancy buckskin color. She rides out nice and has a good steady walk to her. She neck reigns, side passes, backs up, lopes nice circles with ease. Cheyenne has been used in the sale barn putting in long hours penning cattle. She will be the same every time you saddle, even with some time off. My Girls have rode her quite a bit trail riding with me. She usually gets the novice riders when I take a group with me into the wilderness. For more information call Enos at 870 895-5225.

Quantity: 1
