Description

Rafter T Truly

Truly is a 12 year old 15 hand quarterhorse type molly. This is the mule everyone is looking for - flashy, quiet, just the right size and you will run the tires off your truck trying to find a gentler mule. She is friendly and always meets you at the gate. She is safe and quiet to handle on the ground, picks up her feet and clips without issues, will stand tied for hours, stands patiently for saddling and bridling, loves her ears scratched and loads right up and hauls like she's not even in the trailer. If you can get on her, you can ride her. She is a great combination of stepping out nicely on the trail

but only going as fast as you ask her to go. We have yet to find anything that bothers this mule. Truly knows all the basics in the arena but trail work is her specialty. She is a reliable mount and will carefully cross bridges, water, down trees and most anything you might encounter on the trail. We have used Truly to gather, move and sort cows and she is handy in the branding pen. She is a pleasure to ride on the trail and does not spook. If you are looking for a family mule that everyone in the family can handle, ride and enjoy, Truly is your mule. She is up to date on vaccinations and deworming and had her dental work done in the spring of 2022. Contact Pam or Matt for more information, to schedule a visit to our ranch or to arrange to try out this nice molly on a trail ride prior to mule days. (541) 280-5077 or fourniertraining@gmail.com
