**Year** 2014

**Gender** john

**Color** Black with white feet

**Height** 15.3

**Location** OH

### **Description**

Roscoe

I am proud to introduce to you, Roscoe. He is beautiful black with white socks on all four feet. He is an 8 year old john mule standing 15.3 hands and is as gentle as he is tall. Roscoe is exceptionally well trained to ride as he is to drive. He has been trail ridden in all types of terrain, whether you are riding in steep mountains or going through creeks, over bridges or doing obstacles, he will take you there with ease. We had Roscoe on overnight camping trips, and he ties well on highlines. We have used Roscoe to work cows and rope calves in the pasture, as well as ponying mules and starting colts, he stays nice and calm when things get rough. He has a nice walk, trot and lope in or out of the arena and moves well off legs cues so you can easily work gates with him. He is soft to the bit and has a smooth one-handed neck rein. You can drive Roscoe to town, he doesn't mind the busy traffic. We have also driven him double to spread manure on our pastures. He is fine to be out in the pasture or in the barn and has no bad habits. He has excellent ground manners, is easy to catch, good to clip and

loads well on the trailer. We raised Roscoe until he was a 2-year-old then sold him to my mentor/friend until last year when we had the opportunity to purchase him back, which we did without any hesitation. Roscoe stands well for the farrier, vet, fly spray, bathing and for grooming. We would love to talk to you about Roscoe and answer any questions you might have. You can reach us by calling 330-439-3285 or email at leonraber5779@gmail.com
