Description

Em-Jay

Em-Jay is a very nice 9 year old molly mule. She does everything a great trail mule should do. She catches, loads, trims, shoes, bridles, crosses water and rides solo or with company. She has been packed in the back country and stands quietly tied to a high line. She is quiet in camp and around dogs and other animals. Em-Jay is sound in every way. She is very light and soft in the mouth which is why she rides and handles so nicely. She can travel and walk with the best or slow right down for the casual rider. You chose the speed all on a loose rein. She has been in professional training with David Miller of St. George, Utah (435-632-7345) for the past year and she is extremely trainable and kind. No bad habits, just a super nice mule with years of great riding to

come. Em-Jay is extremely pretty. People comment regularly on her good looks and kind disposition . She is very well balanced with nice bone and good strong feet. Her conformation is strong but smooth with a small throat latch and a very feminine head and warm eye. Please come by and see her, you will not be disappointed. She is the one people are looking for.
