Year 2013

Gender molly

Color Chestnut

Height 15.1

Location WY

Description

Cash

Cash is a 9 year old chestnut molly with exceptional confirmation and she is very easy to be around. She stands 15.1 hands and will weigh all of 1150. Cash rides with a one hand handle, stands to get on, good to trim, good with dogs, good to clip, and is as pretty as they make them. She will travel out all day and go where she is asked. She has been an absolute joy to ride and gets a lot of attention anywhere you take her. I have really enjoyed dragging calves on her at neighbors' brandings. Even the "horse only" hands comment on what a nice mule she is. She is good to catch and easy to handle with very good ground manners and respects your space at all times. I have roped on her and hunted on her in very rough country without needing a breeching. She has an excellent back and holds a saddle well. Cash is very confident taking the lead and enjoys seeing what is around the next corner in the mountains. I have used her hunting lions and on missions for Search and Rescue in deep snow with very demanding conditions. She handled all situations very well. Cash exemplifies the characteristics that I look for in a mule. For more information, call Chris at (307)-680-4875.
