**Year** 2016

**Gender** molly

**Color** Dark Buckskin

**Height** 15

**Location** AR

### **Description**

Daisy

Daisy is a 6 year old beautiful buckskin molly mule. She is 15 hands with a gorgeous head and nice hips. She is out of a AQHA mare with Doc's Remedy bloodline. She was born and raised locally and was trained by myself here at Rocky Ridge Mules from the ground up. She is a super good minded mule with alot of class. She is very easy to catch and extremely friendly, easy to shoe, saddle and bridle. Daisy loads and backs out of the trailer. We have rode her many miles on the trail crossing water, downfalls and very rough terrain. I have used her personally hog hunting and will pack wild game. She has been used to pen cattle at the stockyards and will side pass, backs up and knows all her cues. She has been roped on some as well. She can be off from riding for several

months and be the same when you saddle her up like it was yesterday. Come check her out at Bryce Canyon Mule Days. Call Enos Borntrager with any questions at 870 895-5225.

**Quantity: 1**
