Description

Cool Cajun Secret

"Gus" lives up to the name, ladies love him and he's got that old school cool personality. This dude is BROKE, one hand fancy in a full bridle or just plunking around in a halter. Gus just spent one full year in professional reining training. He's been kept fully fitted under lights and ready to hit the show pen or get out to work in the cattle pens. Gus has been exposed to moving trains, large operating equipment, semis, atvs, utvs, gun fire during target practice. He babysits weanling colts as well as show calves. Used to dogs, cats, and random farm animals. Gus is a big guy, at 16hh and pushing 1250lbs. Plenty of size to be a man's horse. He does have a cosmetic blemish on his left front knee that happened when

he was a yearling. We have current X-rays showing all clear (included in pics), just superficial. He's ready to go to work for someone now. To discuss Gus in more detail please give Crystal a call @ 830-688-6150.

Height: 16
