Description

MISSN SAN SUGAR

"Reba" is a special little mare with a great big heart. She is the perfect size to do about any job but not be so big to intimidate a timid rider or youth. She stands 14.3 – 15 hands and will weigh 1050#. Cute as she can be with a pretty face and soft eye. She is a very kind mare that is easy to get along with and really wants to be your friend. She has a great foundation in the arena and was started correctly. Very soft in the face and uses herself well. The past 2 years Reba has had full time employment on the ranch doing all the basic ranch chores. Sorting pairs, doctoring, trailing cows, checking fence, putting out salt, etc. She has a great work ethic, is very cowy and willing to do any job. Stands tied off and understands a real job. "Reba" has branded lots of calves, doctoring outside and is well started on the heel side as well as in the breakaway. Even patterned in barrels and poles. She is working very nice and has a big future if taken in that direction. We never have to worry about her doing anything dumb or being unsafe in anyway. Always gives 110% and aims to please. I truly feel that she would make an

outstanding little all-around horse for junior rodeo through high school. Polite to bath, clip, hobble, haul, gets along with others in the herd, etc. Good manners and has basic respect which makes her nice to handle no matter what you are doing with her.

Height: 14.3
