**Description**

**SPEEDY ORPHAN DRIFT**

Drifter stands 14.3 hands/1150 lbs. He's stout and willing. He has that beautiful dark buckskin coat in the summer. Nice black feet and heavy bone. Check out the nice hip on Drifter! This is a good all around family horse and would work for any rider. Neck reins, side-passes to open and close gates. He has a quiet disposition and is easy to be around. If you like the Driftwood breeding, he has got it! He is no stranger to the mountains. He crosses creeks, goes over logs and is sure footed. Follows a trail great. Haul him alone or with other horses no problem. Ride him out by himself or with a group of horses. Currently in a pen with 5 geldings and gets along. Been roped out of the box a little, roped the heel-o-matic both ends.

**Height:** 14.3
