Description

STUNT MAN

Stunt Man, is a 13-year-old registered AQHA Bay Gelding That stands 14.3 hands and is built like a bulldog. This is my personal go to town rodeo horse. When the job has to get done right and done quick, I get on him. This guy is as royally cow horse bred as you can get one. And has the credentials to boot. This is One of the nicest all-around geldings I have ever owned. You can head or heel steers in the arena on this guy and he is dang good at his job. He is also a dang good breakaway horse and has had quite a few calves roped and tied down on him. He has won saddles and buckles at Rodeo and jackpot events and is a tough scratchy competitor. He will cut a cow and is as broke to ride as you can get one. He also happens to be the most gentle and kind hearted soul we've ever owned. We have done so many things on this great horse over the years and are sad to see him potentially go to a new home. But he is at that age where it is

time to share him with somebody else or keep him forever. This horse can be ridden by young little kids or older folks that have a harder time getting up into the saddle. He has patience and is always gentle. This is the kind of horse the Boss should be riding. And you will feel like a boss when you're on him. You can pull his bridle off and ride him with a twine string around his neck and he will ride just as good. Stuntman is one of the best trail horses we've had. Because of his steady quiet disposition and confident attitude, he is great in all settings. He's the real deal through and through and he is guaranteed sound and gentle.
