Description

ROSE

Rose is well built, tough and a durable mule. She is not for beginners and needs a rider who is used to mules. She stands good to saddle but starts out tensed. With a little riding she does relax and soften up. Rides well alone or in groups. Ties good. May be hesitant leading into unfamiliar places. Has had her feet handled some but is a bit touchy. I have never known or seen her buck, kick, ect. She would be a good one to put in a working string.
