Description

Daisy

Daisy is one special mule! If you're looking for safe, fun, experienced, gentle and friendly Daisy checks all the boxes, and we didn't even mention colorful and unique! Good boned standing 14'3 perfect size to carry any size rider. She's the perfect age at 10 years old! Ridden all over the country from the hills of Tennessee to the mountains of Montana, she's been in all types of terrain, crosses water, logs, bridges. She is very sure footed and agile going up and down the steepest and rocky areas you can find. She rides down country roads, in arenas & pastures, with dogs and around all kinds of wildlife, machinery and 4 wheelers. She's easy to catch, stands great to saddle and bridle, will move to a mounting block to mount and waits for your cue to walk off. Always ready for an adventure she jumps right in the trailer and is ready to go! Daisy has been ridden countless miles by friends and family always taking great care of whoever is in the saddle. She stays gentle even with extended time off. No steps have been skipped in her training. She has a great neckrein, moves off your leg, sidepasses, stops and backs with ease. Daisy is really smooth riding, will walk down the trail like a quarter horse, and as an added bonus she has a fun to ride running walk that's smooth

as glass, will easily step right up into a nice collected canter and guide with a loose rein. She is very controllable and responsive to both leg and hand cues. She lays down, goes over tarps, carries a flag and is parade ready. A forever mule with a great heart, Daisy is a mule anyone can ride and enjoy for a lifetime of happy trails. For more information, call Bryan @ 406-839-4224 or email mahoneymuleco@aol.com.
