**Height** 15.2

**Description**

General Lee

General is a super cool grey john mule who will get you noticed in any crowd. He is 7 years old, stands 15.2 H, and weighs in at 1150 lbs. General has a supper sweet disposition and is always ready for a fun day at work. We have ridden him all over the mountain to hunt and lead pack strings with him. He is a very handy mule with a one handed neck rein that rides off your seat and legs. He is very smooth in his gaits with western pleasure style lope and a low head set . General would make a great show mule prospect for ranch riding. He has great transitions and is very willing to go anywhere you ask! He will side pass up to a rock or tree for you to get on. He is also taught to lie down for you to get on or off. He knows his way around the chores of the ranch. He handles a rope well, he is good to sort and gather cattle on and isn't afraid of a full days work. He is very quite and gentle. We believe he will fit most levels of riders. General loves his bath and stands great for the clippers, loads in and backs out of any trailer, and is great with dogs and other livestock. We encourage you to come to

our place and try out our mules. We live 30 miles out of Cody Wyoming and have a vast amount of trails you can ride any of our mules on. For more information or to make a appointment to come see are mules please call us at 307-250-0900.
