**Year** 9

**Gender** molly

**Color** Palomino

**Height** 14.3

**Description**

Cheyenne

Meet Cheyenne, a 9-year-old Molly mule who is pleasant, eager, and has a willing mindset to go with her beautiful palomino color. She stands at 14.3 hands tall and is stocky built. She is the right size where she can handle a bigger person but still easy to get on her back. Cheyenne has been hauled extensively where she has been trail ridden many miles on all types of terrains.. She is one you can go out by yourself or in a group, she stays calm and confident either way. She will cross creeks, bridges, and go up and down hills with ease and also can be ridden safely on roads in traffic. She is not a spooky mule and will go anywhere she is asked. You can leave her set for weeks at a time and when you get her out there's no buck or funny business. She will be right where you left off. She can be kept in the pasture or in the barn and does not have any bad habits. She is wearing shoes all around because of the roads where we ride. Cheyenne is super smooth in the walk, trot, and lope that you can sit in all day either in the arena or out on the trail. She is soft to the bit and responds to legs cues where you can open and close gaits, sidepass, and pick up her leads. We have had all level of riders on her back and she adjusts to the rider and takes care of them. We have been

using her for ponying and starting colts, she keeps her cool when things get tough as well as pushing cows from pasture to pasture. She has been ridden western, english, or even bareback on the way to the barn from the pasture. She has great ground manners and will stand tied to anything without any problems. She stands for the vet, farrier, bathing, fly spray, and for grooming. If she sounds like the mule you have been searching for please give Leon Raber a call at 330-439-3285 or email [leonraber5779@gmail.com](mailto:leonraber5779@gmail.com).
