Location WY

Description

ARROWHEAD

Arrowhead is a heck of a riding mare. She is a big mare standing at 16.2 hands. She's been ridden and packed in the mountains. Get her on the road or trail and you'll see that she has a slower gait and faster, real ground covering gait. Arrowhead is 8 years old. She is a smart mare that learns quickly. Even at a slow walk she can really cover some ground. Arrowhead is a perfect cross between a Tennessee Walker and a Percheron. I've rode her on some real nasty, snowy, and icy days and it didn't bother her one bit.

Height: 16.2

Quantity: 1
