Description

STONEYLEIGH MOURNING DOVE

Stoneyleigh Mourning Dove aka Dove or Didi as I call her is a wonderful horse. SAFE, SANE, SOUND and SWEET are qualities that everyone is looking for and she has them all and more plus she's beautiful to look at!

Please watch the whole video (I know it's long); all I put in the ad is on the video!

Didi is a flashy sweet gentle giant (although she is not too big) that loves to be brushed, scratched, loved on, she loves her bath time and being pampered.

Wonderful trail blazer she feels at home on all terrain, put her in the front or in the back she's happy either way. Uphill, downhill, snow, water crossings, pony horses off of her, she does it all! She's happy

to just stroll at a walk on your hack or canter in a field, totally relaxed and under control, no take off, buck, rear, sass or funny business from this sweet gal

She was trained to drive double earlier on but I haven't had a chance to put her under harness.

She will learn new obstacles easily, just have to show them to her couple of times. She already learnt to carry the flag (yes even at the canter), cross bridges, walk over tarps, or wear them, they can even get caught in her rear legs with no reaction from her (see on video), she can carry a huge stuffed animal, and is not scared of a flock of flying helium balloons nor of a kid electric car. Did I mention she rides bridle-less? Yes, a big purebred Clydesdale and yet you can drop your bridle in a huge arena and be safe at all gaits! She is sweet at heart and seeks the relationship with her caregiver/rider.

She is sensitive and appreciates a kind loving, sensitive rider; I really don't think she would like as much nor deserve a rough handler.

Impeccable ground manners, you can have your kid lead her, she will never pull, ties, cross ties, trailer loads beautifully, great with her feet and great for the Ferrier (she kind of enjoys it), stands for mounting (use your trailer, mounting block or from the ground), great at bathing time (even her face).

Make her your trail buddy, or take her to your local dressage show, you will be noticed on this flashy sweet soul!

Breed her to a Gypsy stud and produce a registered Drum horse, or produce a nice purebred Clydesdale

Height: 17.1

Quantity: 1
