Description

KING BRESHON

Meet our real-life Breyer Horse with the striking black tobiano color the epitome of classic Gypsy horse. King is the kind of horse people dream about owning! He is a highly trained by Amish for driving, and total dream on the trails. He's a useful partner on the ranch, safe for the entire family, and as a bonus he can pull anything! He can even mow the lawn or plant a field with his precise stepping. He comes to greet you at the gate and will follow you around eager for attention. Ridden by young children, 2 or 3 at a time, he loves it all! You can crawl through his legs and he'll stand quietly. King is always a true gentleman in every and all situations. He's the one you will want to grab and go have some fun on every day. He'll put a smile on your face with his sweet, loving disposition and curious personality. He is accustomed to all types of terrain. He crosses water, teeter totter, tarps, with confidence. He will go right where you point him without hesitation. He is brave by himself or will gladly follow a group out on the

trails. He has seen lots of wildlife, dogs, cows, other horses, pigs, goats, chickens, blowing tarps and loud gunfire. He rides in heavy wind and rain too. King has had a solid year of professional riding and driving training. Started with KD Performance Horses and finished by Grace Stables. He has been exposed to busy roads and noisy traffic. He loves to go for joy rides down the road and is an absolute blast and so easy to drive. King is extremely smooth and comfortable to ride. He can ride one handed, and has a rocking chair lope on a draped rein, pretty one-handed spins, gorgeous collected carriage, a deep smooth stop, and a jog that you can sit all day long. King is light in the mouth, simple to maneuver and easy for all levels of riders. He's an easy horse to own with a good memory, gentle, quiet and safe. King is a solid and sturdy mount for a timid rider or one lacking confidence. Don't be fooled by his size, a 6ft tall rider will also look appropriate on his drafty build. He is great to trailer, bathe, saddle, and ride. He is gentle and sweet to be around. I cannot say enough about this extraordinary gelding. You won't find another one like him. He is one of the coolest horses that we have had a pleasure to own. This gelding has a wonderful pedigree as well! He's so receptive and wants to please. King is easy on the eyes with his flawless looks, gorgeous hair, and commanding presence. Listen for gasps of awe as he steps off the trailer. You will ride in style. We absolutely love this teddy-bear gelding and he will be a tough one to part with. His sweet disposition, gentle spirit, fabulous hair, fluffy feathered feet, and all around talent to do anything you throw at him. King a true gem and a once in a lifetime kind of find! Pre Purchase Exam done, the vet commented "You can bring me horses like him any day" There is a small flap by his belly button from a hernia stitch he had as a foal, he said it won't bother him. Also noted a small sore or scrape on his front right foot, we are treating right away. Report included with purchase or available, just ask. All questions welcomed, or any visits to try him out or meet in person, also very welcome.
