SD Red Cloud

foal date June/9/2016

13HH Purebred Registered GHRA IMPORTED Gypsy Stallion

We can't say enough about this, cute as a button, fluffy, correct, purebred, Gypsy Vanner, SD Red Cloud. Sired by the famous SD Knomeo who is a circus horse in Australia with Webber Circus, and wonderful breeding stallion see photos included of him! Cloud is an absolute sweetheart with a teddy bear personality the Gypsy horses are known for. Cloud is very smart and willing. We love how he's uniquely marked, and his beautiful red color, perfect for producing palomino when bred to cream or with a red base can produce ANY color the mare brings. His first foals are on the ground this year and are absolutely wonderful. He has always been hand bred. Cloud has the, coveted by breeders, cute head, small ears and very correct type powerful and compact conformation, bred by the world-renowned Down family in the UK.

Cloud knows how to bow on command, he is great with many liberty exercises too. He has been ridden by a 13 year old boy the most, and trained with Grace Stables professionally, for a year, from the ground up the right way! He crosses obstacles like teeter totter, water, tarps etc. and knows how to pull anything. He is an EXCELLENT driver; traffic doesn't bother him a bit. He's been around children, dogs, farm life and even a drone screaming above his head. He's very friendly, easy to catch, bathe, trim, trailers and ties with ease. Cloud is a joy to ride and looks to please. Have fun with children brushing and braiding his luxurious mane, tail, and feather, a real life "My Little Pony". He's has been shown in halter at the Minnesota Horse Expo and loved every minute of it, you would never guess he's a stud. He does love to play and show off too in the pasture. His movement is AMAZING and have been told his confirmation is perfect. He's had even more training since spring when the video was taken. Rider on Cloud is 5'11" tall for reference.

Feel free to contact Danyale Bressler/Grace Stables 507-254-2594 with any questions or stop out and meet him in person!

Video/photos taken in the spring; more training has been done since.
