Description

BLIND SIDED CAT

So excited to bring you this fun and athletic AQHA gelding. Blind Sided Cat was bred by the Aaron Ranch by their stallion Blind Sided LTE \$206,849 out of a daughter of NCHA Hall of Fame inductee, Smooth As A Cat LTE \$500,037. Kashton, as we call him, is a 2018 14.2 hand solid bodied horse. He is a gorgeous red Rabicano that has the white ticking going down his tail and through his long beautiful flowing mane. This guy has a fantastic foundation with reining training and also working with cattle. He will ride all day, checking fences alone, and never gets tired putting in a day's work. He is easy to ride and has an awesome tight neck rein. He has been on lots of trails at different parts of the country and will go through creeks, muddy trails, over bridges and is good to ride in heavy traffic. He has a great mind and loves to learn new things. He has three

very smooth gaits, and will suck it back for an easy jog, or easily transitions to a nice extended trot as well. He has nice lift in his shoulders in the canter and a smooth lead change as well. Kashton has been ridden by lots of different people and always rides the same no matter who is on his back.. You do not have to be a professional to get along with him at all. He has an awesome spin, and really gets his hind end down into the ground when you ask him to stop. He has been used to rope off of and has done all different aspects of the ranch life, but will always settle in as a fun, beautiful backyard friend as well. Kashton is wearing shoes all around because of where we ride him. He stands awesome for the farrier and the vet. He is a gentleman to groom and tack up and is a no maintenance type of horse. He really came into our program and took everything that we threw at him with no issues. If you feel that this is the horse for you, please give Duane Yoder of Buckeye Acre Farm a call at 330-231-2324.
