Description

THUNDERBIRDS CHILLI SNAP

"Cactus" is an adorable 11 hand registered shetland pony gelding who stands 11 hands tall and has a gorgeous long mane and tail. Cactus is registered with the American Shetland Pony Club and is 15 years young! He is gentle to be around and good to catch, lead, load, tie, and trim. He is green broke to ride and would make a fantastic project for a handy little kid to take on this winter. He is a super fun little driving pony as well! He will go up and down the road, in the arena, drive through the pasture, and in has gone through town as well and keeps his composure well and drives on a loose rein. He is not a pony for little little kids as he is still learning himself, but he is a great option for a kid wanting to have a safe project to finish training on.

He gets along well in the herd and can be pastured with big and small horses alike. He has no maintenance or health issues, has never been foundered, and is by a VERY well known stallion in the Shetland industry. Take Cactus and enjoy horse ownership without the hard work ahead of you! He is ready for a million miles pulling your cart or ready to further his skills as a pony under saddle. Cactus is a great starter pony for someone wanting to get into the driving industry or wanting a safe pony that is a blank enough slate under saddle to mold into what you want in a riding pony.

Height: 11
