Description

EYES TWO CASH

Looking for a project? Padro is a 15hh registered sorrel gelding. He is out of a stud I owned that was a jam up rodeo and rope horse. He's got a nice start on him but he is still green. I threw a saddle on him for the first time this past summer. I hopped on him and asked him up into a trot towards some trails and he did it without a fuss. Since then I've just been using him running cattle up and down alley ways and he does alright. He needs alot of time and exposure yet but he will make a nice horse. He's got

try and a lot of cow and that's promising for making a nice one. He walks, trots, lopes, backs, and decent at moving off your leg. He can be a little watchy on the ground. He's got a scar on his front knee from when he was a baby but it has never effected him. I guarantee him 100% sound

Height: 15

Quantity: 1
