**Description**

CHEATISH

"Cheatish" is a gorgeous red roan mare that stands about 14.3 hands. We have had this mare in training since January of this year. She is just phenomenal at everything she does. She is gritty and electric on a cow. Cheetah's smooth rollbacks and rocking chair lope make her a very comfortable ride. Cheetah is an NCHA money earner of \$2,100. She is still being shown and adding to that. Cheetah is sired by the great stallion, Hottish, (deceased) who was an NCHA money earner of \$301,000 and has sired over 6 million! Cheetah's mother, Chita Blue Star, has produced over \$100,000 herself. This horse is bred to be a winner! Not only is she a superb athlete with outstanding breeding, but she is also GENTLE! Anyone and everyone can ride this special mare and they will have a blast. My 4-year-old little girl rides her around our big pen by herself and Cheetah is the first horse she has ever rode by herself. You can rope on Cheetah as

well. She will pony other horses, walk through water, carry flags, rides bareback and bridle-less, good with tarps, and she will follow you around without a halter. She is good for the farrier and the first one to meet you at the gate. This bombshell of a mare is the same every single ride, whether you just rode her yesterday or a month ago. Cheetah is a once in a lifetime horse. You will search a long time to find another one like her with her black-type pedigree, beautiful red roan color, athletic ability, strong body and incredibly kind soul all wrapped up in one horse. Show horse to family/ranch horse, you cannot go wrong with this gorgeous mare! She would have some amazing babies when you're done with her! Don't miss her. This is a fantastic, very athletic mare with the absolute best personality. Cheetah has a scar on her left shoulder. It is only cosmetic and does not affect her performance ability. Call Whitney at 916-547-1198 for more information. We are located in Whitesboro, Texas and encourage anyone who is interested to come meet Cheetah.
