Description

Remmy - the sweetest boy in the barn standing 15H and wrapped in a beautiful red roan package. If your looking for a best friend, one that you can pull out no matter how long he sits, never gets fresh and one you can take on any adventure you want Remmy is for you. He has spent a big part of his life prowling the pastures and helping with all the ranch chores. On top of being a standout ranch horse he was also headed on in his younger years and was hauled all over. Since then he has been used to check cattle, lots of trail riding and been in a busy lesson program teaching kids of all ages

how to care for a horse and ride. Remmy is the most forgiving of his rider, and is so patient and kind. He will stand all day long to be brushed and groomed. He is not afraid of cars, heavy machinery, wildlife, dogs or airplanes flying over. Not only is he a saint in the saddle he also has the best ground manners and easily controlled by small children. He is great with his feet, loads and hauls like a gentleman and easy to saddle and bridle. If you're looking for your next best friend don't miss Remmy. He's truly one of a kind.
