Description

Rufus is the ultimate all-around horse, blending personality, versatility, and reliability into one extraordinary package. Whether you're tackling ranch work, going on scenic trail rides, or letting the kids enjoy his calm demeanor, Rufus is always up for the task. His smooth gaits and great handling make him a joy to ride, while his charming, easygoing nature makes him a barn favorite. Standing at a compact 14.3 hands, his stunning bay roan coat and striking presence turn heads wherever he goes. He has the bone of the gypsy combined with the sport and ability of a quarter horse. Rufus has a great smooth handle he can ride into pressure collected or on a loose rein. He has smooth departures, transitions, he has great lateral movement and collection. Rufus has seen the sights all over the country—from the rugged Black Hills of North Dakota to Estes Park, Colorado, and Cheyenne, Wyoming—and has proven his worth on everything from gathering and sorting cattle to navigating rough terrain. His forgiving nature and confidence make him a great fit for both experienced riders and novices, offering a steady, safe mount for riders of all levels. Though he's primarily been ridden

Western, he's also comfortable with English tack and would excel in either discipline. Rufus is the type of horse that comes along once in a lifetime—a true standout in every way. If you're looking for a trustworthy, talented, and endearing companion, Rufus could be the perfect match for you! (618)-535-9966
