Description

Height 14.1

Felipe is 2011 grullo John mule. He's very broke for all ages and level of riders. Felipe absolutely adores kids. He's broke to pack and ride. His keen Quarter Horse build makes him extremely versatile and able to work all day while giving him lots of eye appeal. Stands great to shoe, trim, and clips without sedation. He's got great feet as well. Whether you are wanting a nice ride to hit the trails this spring or one you can go do a job on in the mountains or on the ranch, Felipe is going to get you there safely and in style.
