Email pairadicemules@hotmail.com

Year 2017

Gender MOLLY

Color BUCKSKIN

Height 15.2

Location MO

Description

Pairadice's Millie is an 8 year old, buckskin curly Molly mule. She is 15.2 and weighs 1200 pounds. Pairadice's Millie is a unicorn of all mules. You will never find another one like her. Not only is she a curly mule (some say hypoallergenic) but she is a buckskin with no dun stripes. Millie was born in Canada and her mother has a curly coat. Her sire is the jack Silver Nugget. I have had Millie around for several years. She is really gentle and super affectionate. She is the first to the gate every morning. When you saddle up to go riding, she is all business. She has a really fast walk that can make the rest of my mules hustle to keep up. She will go anywhere you point her. I have ridden Millie all over the United States in all sorts of terrain – from Caney Mountain in Arkansas to the Big Horn Mountains in Wyoming and everywhere in between. She has hunted hogs in Texas and chased mountain lions in Utah. I have packed her and lead a pack string on her. She is an all day mule that does not wear down. I have gathered and penned thousands of head of cattle on her and used her for all aspects of ranch work. She is my go to mule for everything! You can lead dogs on her and pack dead animals out. She has had lots of arena time. She takes her leads great, neck reins, side passes

and has a good stop and turn around. She is easy to catch, clip and shoe. She stands good to mount. She will load in any type of trailer. Mules like Pairadice's Millie only come around once in a lifetime – she is a unicorn! For more information, please contact Paradise Mules or give Loren Basham a call at 573-308-2709.
