Location NM

Description

At 9 years old Precious is a very kind Molly Mule. She is great at trailing and packing. Precious will fit anywhere on the packing string front, middle, or back and doesn't mind any kind of game being packed on her. She is ready to work at all times. Precious is an outstanding mule who has been on all types of trails and has proven nothing will bother her on the trail. From 4th of July parades to being deep into the wilderness of the Gila National Forest, she has proven she will take care of you as a rider. She can be mounted by anyone from the most experienced rider to an inexperienced rider – anyone can travel miles and miles on her and she has seen many! Precious gets along great with other mules and will never leave you. She has proven she is ready for any task you might put her through and will go in any direction you point her. For more information on Precious call Matt @ 605-695-4797.
