**Gender** MOLLY

**Color** RED ROAN

**Height** 14.3

**Location** KY

**Description**

The sun shines bright on this Kentucky mule! Boomin Annie Okie is a beautiful red roan molly mule coming to you from Kelso Mules in Murray, Kentucky. Eight years old in the Summer of 2025, Annie stands 14.3 hands. Annie is by the Scooter's Tomahawk Jack and out of Blue Jane Pepto, a gray AQHA registered Quarter Mare that is a great-granddaughter of the original Peppy San Badger. She is super easy to be around and does not mind dogs or traffic. Annie is easy to catch, load, and shoe. She has more buttons than a button factory: neck reins, side passes, takes both leads, walks, trots, lopes, and backs. Annie is good with her ears and will stand untied to be brushed, saddled, or mounted. She rides off with ease and has been trail ridden extensively in the hills of Kentucky and Tennessee, as well as the mountains out West. The sixth generation Kelso name is synonymous with good quality mule stock, and we stand behind what we sell. On any given day, we have about a hundred mules in inventory. We think Annie could be the gentlest and most well-trained mule we have ever owned. She will be the same when you get her home as she is represented on sale day. We are proud to offer Annie for your evaluation. Feel free to call us anytime or come by the

farm before the sale to check her out for yourself. Contact Jody Kelso (270)-293-0691 or mail@kelsomules.com.
