Height 14.3

Location WA

Description

Juniper is a 13 year old gorgeous dark bay Molly mule standing 14.3h. This Molly's personality will have you falling in love with her from the beginning. She hands down is one of the kindest and willing mules I've had the pleasure to work with. Juniper has been used in the show ring for youth riders, been on tons of trails, and is a packing machine! She is the ultimate package. Juniper has been actively used in a lesson program with a variety of riders on her. You can ride her western, english, or bareback. She is rock solid at the mounting block and will stick right by your side when doing liberty work. She really wants to please her rider. Juniper moves nicely off your seat and legs, and has very smooth gaits. She is well acquainted with the trail obstacles, tarps, flags, and dogs. Juniper loves ear and butt scratches and can stand tied for

hours to be groomed. This lovely molly has been hobbled and high-lined. Juniper has attended Ty Evans clinics, and is a solid mule no matter where you take her. She is the first to meet you at the gate and gets along great in a herd or stalled alone. Juniper is the type of mule that can sit for a period of time and just get on and go.
