### Description

#### COVERED BY CORI

Our mission is to protect legacies for future generations by informing our clients about their options for insuring their animals. We believe that investing in insurance for your horses and livestock is a proactive step to prevent financial setbacks when unexpected events occur. Founder Cori Cosper often says, "When it comes to owning livestock, it's not a question of IF something will happen, but WHEN it will happen. We like to help our insureds navigate how much risk they are willing to carry on their own and how much risk they need help carrying."
