Description

HQH COBALT CAVALIER

HQH Cobalt Cavalier has always been one of my favorites. His color is very eye-catching, and you can't miss his big, shapey hip. He has a kind, inquisitive eye and learns very quickly. Cobalt is sired by our HQH Quincy Blue, the Quincy colts have always been some of our favorites to ride. They have big motors yet are gentle and kind. Cavalier is out of HQH Tracie by Smoky Music Too. We raised "Smoke" colts for years and he was and still is a big part of our success as breeders in the cow horse world. We have kept three of the six sons of HQH Tracie and they are all in our riding string. Her colts have sound minds, they are intelligent, big-hearted, and love people. Cavaliers' older full brother is also a standing stallion. One thing I love about Cavalier is that he is always paying attention. The stallion that I currently ride (HQH Steel Saber) is a half-brother to Cavalier by the same sire HQH Quincy Blue. Cavalier reminds me so much of Saber, I see the same athleticism, the same focus and energy, the same beautiful head and hip, and the same driven willing attitude. I am confident that you will love Cavalier too! He will make an excellent stallion for your breeding program, or an outstanding ranch/performance horse.
